Date : 3th June 2021

Bhautik Badal

Day -8- Report
(Work Summery)

INTERNSHIP at AkashTechnolabs

❖ Day-8 : What we have learnt ?

◆ In today's session we learned how to navigate through multiple pages using various urls and its associated functions of views.py.

◆ We also learned how to setup path for templates and static file which are most useful features of Django we import images for static folder using different syntax of jinja2 than regular html syntax for importing CSS,JS, Images files into html page.

✧ This Internship is Task Based Internship. So at the end of this session we got one Task.

❖ Tasks :-

Create a web page using Django.

❖ Output :-
